No.	Question	Answer
1	Can the inspection reports of the pump stations be exported as a spreadsheet, and is it possible to filter them by district and by month of the inspection? Can the inspection reports of the pump stations be exported as a spreadsheet, and is it possible to filter them by district and by month of the inspection?	Yes. Every report can be exported, and the export keeps the district, the station number and the date of the inspection so the list can be filtered later. Yes. Every report can be exported, and the export keeps the district, the station number and the date of the inspection so the list can be filtered later.
